

81500025

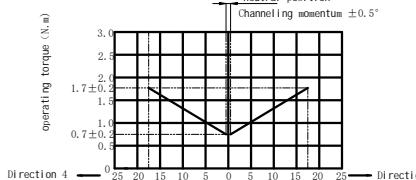

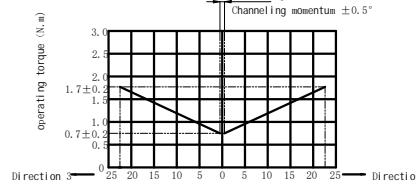

- Specifications:**
- Power rules:**  
Power supply voltage: 10-32VDC  
Current consumption: below 100mA  
Impulse current: below 10A
  - Signal output:**  
Communication protocol: CAN (SAE J1939) EJM1  
Source address: 249  
Communication rate: 250kbps  
Sampling period: 10ms  
Output precision:

temperature	中位	+END	-END
-10~50°C	±2%	±1% -2%+	±2% -1%
-40~75°C	±3%	1% -4%	±4% -1%

- Hysteresis:** Less than  $\pm 1.6\%$   
**3. Mechanical neutral position:** below  $0.5^\circ$   
**4. Operating temperature range:** -40~75  
**5. Maximum operating torque:** 226N/m

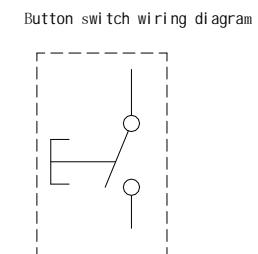

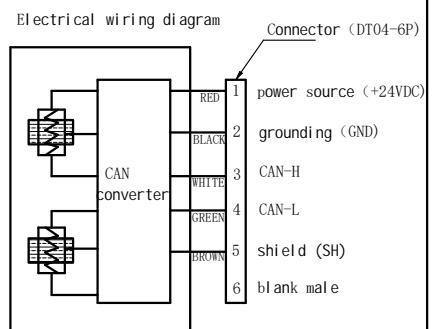

\*When the user uses M6 bolts to fix the handle, the maximum torque shall not exceed 11.7N.m

- Instructions for using the switch:**
- Rated voltage and current: DC30V/3A (resistive load)  
: DC30V/1A (resistive load)  
Minimum borrow capacity: DC5V/160mA-DC30V/26mA  
Operating amount/operating force: 1mm/4N (switch 1, 3)  
: 1mm/6N (switch 2)
  - Operating temperature: -40~75
  - Color: Black

#### Skills requirement:

- The connecting part is locked according to the specified torque;
- The screw connection part of the top cover and the universal joint and the hand Apply thread fastening glue to the handle rod and the connecting head;
- During the assembly process, at the pin shaft of the universal joint, Apply butter to the contact between the top cover and the ejector pin.

FP30-2AW-W1-J249-D-A1-R1

Ningbo Flag-up Hydraulic

 Right handle  
(fully powered)
